

# Be Prepared

## With Latex-Free CDS.™

In an emergency situation, it can be difficult to determine if a patient is sensitive to latex. And it can be just as challenging to find documented latex-free supplies. With Medline's latex-free Complete Delivery System (CDS), we offer peace of mind—five “stock” procedures that contain 100% latex-free components.

If you're not already familiar with Medline's CDS program, we put all the supplies for a procedure, both sterile and non-sterile, in one container. So when you're ready to perform a procedure, you just pull the container and you're ready to go.

Because latex-free carts must be re-stocked, or may not have the specialty supplies for certain procedures, our five stock latex-free Complete Delivery Systems are perfect when you need latex-free procedural components quickly.

Consider adding latex-free Complete Delivery Systems to your facility. It's a good way to be prepared.

### Medline's Five “Stock” Latex-Free Complete Delivery Systems

- General Surgery
- Laparoscopic Abdominal
- Orthopedic
- Labor & Delivery
- C-Section

## Customize Your CDS...

Medline can customize a CDS for your facility, for any procedure. **We take everything that's disposable and procedural-specific and put it in one module.** It's everything that you use today. Same vendors. Same item numbers. Just put together by Medline and delivered to your facility in the container of your choice.

If it sounds simple, that's because it is. For hospitals that need to reduce expenses, lower inventory costs and streamline logistics, CDS makes perfect sense. CDS controls costs and improves efficiencies in every step of the supply chain.

## Learn More About Latex Sensitivity And Receive CEU Credit.

Do you or your staff need to learn more about latex sensitivity? Or maybe a review is in order. Medline is pleased to offer an opportunity to learn more about latex allergies and receive CEUs. Your staff can receive one contact hour of continuing nursing education by completing our workbook entitled "Preparing Staff and Workplace for Future Changes Associated with Latex Allergies." For more information, contact your Medline representative or call us at 1-800-MEDLINE.

**CDS. One Procedure. One Cost. One Container.**
