MEDLINE EXAM GLOVES

Protecting medical professionals more than **ten million** times a day.

Aloetouch Powder-Free Latex Exam Gloves

Medline gloves are sized according to multiple hand dimensions and measurements. This maximizes comfort and fit, and maintains protective properties by minimizing stress and fatigue of the material.

Medline is America's largest supplier of exam gloves. Our selection is as diverse as the needs of the health care community; our complete inventory assures that gloves are available when you need them. All Medline exam gloves are manufactured to conform with FDA-mandated good manufacturing practices (GMP), and are inspected to standards even higher than FDA requirements.

ALOETOUCH® POWDER-FREE GLOVES

Designed for people who frequently change gloves, our Aloetouch exam gloves are coated on the inside with pure, soothing aloe vera. In evaluations, 97% of respondents preferred Aloetouch gloves to their current glove, and noticed a difference in how their hands felt after the trial period. All Aloetouch exam gloves are certified by the International Aloe Science Council. This certification guarantees that the aloe vera in Aloetouch exam gloves meets the highest standards for product purity, thereby providing 100% of aloe vera's natural benefits.

LATEX GLOVES

Latex gloves have high elasticity and tensile strength while providing excellent tactile sensitivity. They are ideal for use in procedures that require greater dexterity. New manufacturing processes have greatly reduced residual protein levels.

SYNTHETIC GLOVES

Medline synthetic gloves are a cost-effective, protein-free alternative well-suited for general patient care. New manufacturing technologies have led to enormous improvements in performance. Try our new Universal 3G synthetic glove for outstanding latex-like fit and feel.

NITRILE GLOVES

Nitrile gloves feel and perform like latex, but contain none of the proteins that can lead to latex allergies. These gloves have a tight cuff seal, are stronger than vinyl gloves and offer a high degree of tactile sensitivity.

Powder-Free Latex

- Coated with skin-soothing aloe
- Low protein to help reduce latex sensitivity
- Textured for secure grip

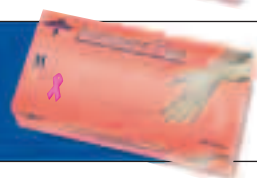

MDS195013 - Extra-Small	100 Each box
MDS195014 - Small	10 Boxes per case
