Medline's Insignia® Stainless Steel Stethoscopes offer unsurpassed quality and value

- Each Insignia Stethoscope is handcrafted from high tensile strength German stainless steel. Features 22" tubing.
- The color coordinated non-chill rings provide excellent patient comfort.
- All models come in a foam-lined box with one extra set of ear tips.
- Available in adult, pediatric, neonatal, and cardiology styles.
- Cardiology Stethoscope has a deep, cone-shaped bell — a unique feature which provides excellent sound transmission and acoustic sensitivity. Features 17" tubing.

MDF® INSTRUMENTS USA

- All MDF® Instruments are Latex-free
- Free-Parts-For-Life Program On All MDF Stethoscopes
- Handcrafted in the MDF® artisan tradition by master craftsmen since 1971
- MDF® stands behind its quality and performance with a 2-year manufacturer’s warranty
- Acoustic tubes are constructed of non-cracking, non-sticking, high-density, latex-free PVC
- Stethoscope Accessories: Additional (2) ComfortSeal™ eartips, (1) UltraSensitive diaphragm and (1) ID tag

MDF® 2-in-1 Deluxe Sprague Rappaport Stethoscope

The advanced X-configuration acoustic tubing on the MDF® 767X eliminates all tube rubbing noises associated with the traditional Sprague-type stethoscopes and provides superior acoustic performance making it the most advanced Sprague Rappaport available today.

The chestpiece enables users to switch between adult and pediatric-sided bowels/bells with ease and interchange both sides of the chestpiece with adult, pediatric and infant fittings (2 diaphragms and 3 bells). The 2-in-1 tubes in the X configuration converge at the middle of the tube and retain a dual lumen and dual input from the chestpiece. This innovation provides superior acoustic quality never available before on a Sprague Rappaport-type stethoscope.

MDF® Pulse Time™ Stethoscope

The original, patented MDF® 740 Pulse Time Stethoscope, integrated with a digital timing device, enables medical professionals to maintain eye contact with patients during diagnosis while monitoring elapsed time. The MDF® 740 provides professionals with a more efficient and patient-friendly method of measuring vital signs. U.S.A. PAT. NO. 5252787

This innovative and patented Pulse Time stethoscope has a liquid-crystal analog (LCA) quartz timepiece equipped on top of the integrated bowels-type chestpiece. The advanced chestpiece is made of lightweight anodized aluminum and the diaphragm is fitted with the unique, raised, ultra-thin fiber diaphragm for greater amplification and transmission of heart and lung sounds.

MDS93AC1PC

MDS93AC1

Desktop Blood Pressure Monitor Features Average Mode Technology!

These premium monitors detect the appearance of an irregular heartbeat during measurement and gives a warning signal with your reading.

- Measurement includes patented Irregular Heartbeat Detector.
- Monitor also automatically stores 99 readings with date and time.
- Average mode feature takes three consecutive measurements and averages them for more accurate results.

The MDS93AC1PC comes with easy-to-use blood pressure analyzer software with point and click help feature.

Item #	Description	Pkg.
MDS93AC1PC	Premium Advanced Monitor. Includes blood pressure software, USB cable for PC download, 4-AA batteries, medium arm cuff and deluxe storage case.	ea

MDS93AX14

Average Mode Technology Wrist Blood Pressure Monitor

This advanced blood pressure monitor uses a unique, patented Average Mode Technology to take three consecutive measurements then display a single, averaged result — a procedure practiced by many physicians for a more accurate result.

- Real-time graphic display of blood pressure being measured, on-screen instructions.
- 5 languages.
- 30 memories for 2 separate users with date and time.
- Average mode feature takes three consecutive measurements and averages them for more accurate results.

Item #	Description	Pkg.
MDS93AX14	Wrist Monitor	ea

Wrist Blood Pressure Monitor

- One-button operation
- Automatically inflates and deflates
- Digital readout of systolic and diastolic pressure
- Digital readout of pulse
- Memory with date and time
- Operates on two AAA batteries

Automatic Digital Blood Pressure Unit

Our revolutionary automatic digital blood pressure units have automatic inflation and error detection thanks to the proprietary “fuzzy logic” programming. The easy one-button design provides accurate and reliable readings.

- “Fuzzy logic” circuitry allows this unit to customize inflation levels for individual patients
- Eight-bit processor provides unsurpassed accuracy
- Auto pulse readings
- Memory
- Large digital readout
- Operates on four-AA batteries

Item #	Description	Pkg.
MDS2001	Automatic Inflation w/Std Adult Cuff (fits arms 22-30cm)	ea
MDS2001LA	Automatic Inflation w/Lrg Adult Cuff (fits arms 30-38cm)	ea

MDS2001

Digital Blood Pressure Unit - Manual Inflate

Manually inflated digital blood pressure units have the convenience of a large, digital readout. Also provides accurate and reliable readings.

- Manual inflation
- Auto pulse readings
- Memory
- Large digital readout
- Operates on four-AA batteries

Item #	Description	Pkg.
MDS2002	Manual Inflation w/Std Adult Cuff (fits arms 22-30cm)	ea

MDS9472	Wall mount basket (not shown)	ea

MDS9407LF

The Mobile Aneroid maintains all of the features of its Wall-Mount counterpart, the 9400, while adding the convenience of portability and height adjustment.

- Adjusts from 29" to 48" to accommodate a wide range of viewing levels.
- Includes inflation system and bulb assembly storage basket.

Item #	Description	Pkg.
MDS9407	Adult, Latex	ea
MDS9407LF	Adult, Latex-Free Neoprene	ea

Blood Pressure Cuff-Guard

Help reduce the potential of cross-contamination by using our protective, disposable blood pressure cuff covers.

- Latex-free
- Made of Tyvek® material
- Quick and easy to replace or remove the cover!

Item #	Description	Pkg.
MDS9157	Child Cuff-Guard	20/box
MDS9158	Adult Cuff-Guard	20/box
MDS9159	Large Adult Cuff-Guard	20/box

Disposable and Reusable Blood Pressure Cuffs

Currently in the United States, treating healthcare associated infections costs more than \$6.7 billion dollars every year.¹ More importantly, nearly 2 million infections occur and over 90,000 lives are lost each year due to these infections.² By establishing measures that are designed to reduce cross contamination, many of these lives could be spared.

Did you know?

There are more than 25 different infectious diseases that may be transmitted or acquired in a healthcare setting. The CDC states that "more than 70 percent of the bacteria that cause hospital-acquired infections are resistant to at least one of the drugs most commonly used to treat them. Persons infected with drug organisms are more likely to have longer hospital stays and require treatment with second or third-choice drugs that may be less effective, more toxic, and/or more expensive."²

Medline offers a complete line of disposable blood pressure cuffs that can remain with a patient throughout their hospital stay. The cuff is discarded when the patient is discharged, greatly reducing the likelihood of the blood pressure cuff becoming a vehicle for cross contamination.

Medline also offers a complete line of reusable blood pressure cuffs that have a built-in antimicrobial finish to help reduce bacteria and a fluid barrier to prevent stains.

Medline's disposable and reusable blood pressure cuffs offer a simple solution to help reduce cross contamination, their related costs and preserve patient quality of life.

Medline's Disposable Blood Pressure Cuffs are made from a soft, comfortable woven polyester fabric in clean hospital white. Each cuff has rounded corners and finished edges for optimal patient comfort.

Geniune Velcro® closures ensure a lasting and snug fit for every patient. Cuffs come in a wide range of infant to adult sizes, each color-coded for convenience. A complete line of connectors and adapters connect cuffs to virtually every non-invasive blood pressure monitor. All sizes meet the American Heart Association® recommendations for accuracy.

Choosing the right size cuff for every patient ensures accurate readings and provides less room for error. The chart (to the right) will help you determine the correct cuff size based on the patient's upper arm circumference. Please note that if you choose a cuff that is not the appropriate size, the reading may not be accurate.

Pressure Infusors

Our complete line of pressure infusors is designed for invasive blood pressure monitoring, rapid infusion of liquids and for use with auto transfusion devices.

The reusable infusor is manufactured from durable 200 denier nylon for long life and easy cleaning. The disposable infusors are made from white nylon with clear sleeve material for easy visualization of fluid. The "800" series feature a dial-type gauge while the "900" series feature a piston-type gauge.

Improving Diabetes Management in Long-Term Care

Diabetes is a devastating disease that significantly impacts the structure of long-term care. Twenty-six percent of nursing home residents have diabetes. According to the American Diabetes Association, approximately 20.8 million people in the United States have diabetes. It is alarming that 6.2 million cases go undiagnosed for many years and do not receive treatment until severe complications appear.³ The cost of caring for these residents, and the complications arising from diabetes, exceeds \$6 billion dollars annually.⁴ In fact, one in every ten healthcare dollars is spent on diabetes and its complications.³

That is why Medline is proud to introduce a comprehensive diabetes educational tool specifically designed to address the needs of individuals in the long-term care market. It emphasizes the importance of proper diabetes management to prevent complications, and also illustrates how to achieve it.

Considering that heart disease, stroke, high blood pressure, blindness, kidney disease, dental disease, nervous system disease, and even amputations are all complications of diabetes, it is easy to see why healthcare providers strive to provide the best possible care for their residents. Additionally, knowing that the Centers for Medicare & Medicaid Services is reviewing Pay for Performance measures and evaluating avoidable hospital admissions, like those due to complications from diabetes, it is vital for nursing home staff to understand current standards of practice.

Medline assembled a tool to help healthcare providers better care for residents with diabetes by compiling and organizing data acquired during the course of working with healthcare professionals for more than 40 years.

What's in the Compass Diabetes box?

- One **Director of Nursing (DON) Instruction Manual**—
A teacher's guide to the program, which includes 4 CE contact hours.
- Three additional **Glucose Monitoring Training** resource books—
Put them on treatment carts or in nurses' stations for easy access.
- Five additional **Family Education** books—Give them to residents' families.
- Two **Educational Compact Discs (CDs)**—
To educate staff on using the Optium™ Glucose Monitoring System.

Medline Optium™ Glucose Monitoring System

Medline Optium test strips have been designed to prevent inaccurate tests and test strip waste caused by interferences from many common substances* and/or application of an inadequate sample volume. Application of inadequate blood samples in some blood glucose monitoring systems can potentially lead to erroneous results or error messages which means wasted test strips. A unique fill trigger prevents the test from starting until an adequate blood sample is applied. Simply add more sample and the MediSense® Optium meter produces a result, without compromising accuracy. With a 450 result memory, downloading feature and large easy-to-read display, the Optium system can handle all your blood glucose testing needs.

Hemoglobin A1C Test

The A1cNow® InView System offers incredibly fast, quantitative A1C results (in just 5 minutes) utilizing micro-optical technology that is integrated into a proprietary reusable monitor with single use cartridges that is lab accurate at 99%.

Item #	Description	Pkg.
DIB0310510	A1cNow InView Monitor	10/kit

Monofilament

This monofilament can be used as a routine test to assess a resident's foot sensitivity.

Item #	Description	Pkg.
MSC0002	Foot Monofilament, Diabetic Neuropathy Test	25/bx

MSC0002

MPHSAFETY28

New Lancets!

Medline Preferred Safety Lancets

Medline Preferred safety lancets are simple and safe for both the healthcare professional and the patient. The needle retracts automatically and locks out for extra safety, protecting patients and healthcare professionals from needlestick injuries and help reduce cross-contamination.

Item #	Description	Pkg.
MPHSAFETY21	Lancet, Normal Flow, 21 Gauge 1.8mm	200/bx
MPHSAFETY28	Lancet, Micro Flow, 28 Gauge 1.6mm	200/bx

OMMAT07 series

OMMAT1004Z

Unistik® Safety Lancets

Offers maximum comfort for your patients. The Unistik needle-point is hidden before use and automatically retracts after use to avoid needle stick injuries and help reduce cross infection.

Item #	Description	Pkg.
OMMAT0704Z	Unistik 2 Normal Depth	200/bx
OMMAT0704	Unistik 2 Normal Depth	6000/cs
OMMAT0714Z	Unistik 2 Extra Depth	200/bx
OMMAT1004Z	Unistik 3 Normal Depth	200/bx

Lancets

Ultra Sharp Lancets have fine-point tip for smooth and fast procedures. Choose from our general lancets in 100 or 200 count. These lancets can be used with all general lancing devices.

MPH281001DMEZ

Item #	Description	Pkg.
MPH1505515	Medline Lancet, 23 Gauge Needle	2400/cs
MPH1505515Z	Medline Lancet, 23 Gauge Needle	200/bx
MPH1505514	Medline Lancet, 26 Gauge Needle	2400/cs
MPH1505514Z	Medline Lancet, 26 Gauge Needle	100/bx
MPH281001DME	Medline Lancet, 28 Gauge Needle	20,000/cs
MPH281001DMEZ	Medline Lancet, 28 Gauge Needle	100/bx

INRatio® PT/INR Monitoring System

INRatio PT/INR Monitoring System offers confidence in PT/INR results and convenience at the point of care.

Additional features include:

- Two levels of quantitative quality controls that are performed and displayed with every test
- Individually wrapped test strips that do not require refrigeration
- Simple fingerstick test procedure that requires only 15µl of blood
- Self-maintaining system requires only routine cleaning
- Performs automatic electronic self-tests
- Large easy-to-read screen and easy interface
- Powered by AC adapter or 4 AA batteries
- Memory stores up to 60 test results
- Built-in port for printer communication
- Recombinant thromboplastin with a low ISI

Item #	Description	Pkg.
P-T100004Z	INRatio Professional Kit (includes meter)	ea
P-T100139Z	INRatio Test Strips	48/bx

* Note: INRatio PT/INR is only available to long-term care and home health facilities

P-T100004Z

Genius2 Thermometer

Measures temperature from the tympanic membrane, which shares the same blood flow as the hypothalamus, the body's natural thermostat.

- Utilizes infrared technology to derive the most accurate body temperature from the tympanic membrane.
- Records and analyzes up to 100 temperature measurements, and selects the highest and most accurate in less than 2 seconds, as compared to 32 in Genius and 1-8 measurements in competitive thermometers.
- Reduces the chance of an inaccurate reading due to improper technique or patient movement.
- Durable tip-based sensor technology Improves durability and accuracy, minimizing the need for recalibration.
- Tapered probe design
- Rapid response time 1 - 2 second
- Real time temperatures
- Programmable display
- Reduces cross-contamination
 - No contact with mucosal membranes
 - No touch probe cover application and release

Item #	Description	Pkg.
SWD303000	Genius2 Thermometer	ea
SWD303030Z	Probe Covers	96 ea/bx

Digital Thermometers

Our digital thermometers provide accurate temperatures in about 60 sec.

- Large LCD screen for easy readings.
- Simple push-button start.
- Disposable sheaths allow for sanitary oral, rectal, or axillary use.

Item #	Description	Pkg.
MDS9650	Oral, Premier Oral °F & °C	ea
MDS9652	Rectal, Premier Rectal °F	ea
MDS9654B	Oral, Standard Oral °F	200/cs

Six Seconds*, Temple Digital Thermometer

The NEW Medline Instant Read* Digital Temple Thermometer accurately measures body heat using Patented R.A.T.E.™ technology (Rapid, Accurate, Temperature, Establishment).

- Sensors rapidly track heat flow generated from blood vessels to the skins surface and convert measurements to body temperature.
- Easy-to-use while asleep or awake.
- Meets accuracy standards.
- Large digital display.
- Switchable from Fahrenheit to Celsius.
- Beeps when ready.
- Memory stores previous reading.

Item #	Description	Pkg.
MDS9698	Temple Thermometer	ea
MDS9699	Probe Covers	250ea/bx

*Readings in six to ten seconds depending on individual.

- Gentle, non-invasive sensor accurately reads in F° & C°
- Power/memory control button
- Large Digital Display
- 2-AAA Batteries included

Features Patented R.A.T.E. Technology

FeverScan™ Disposable Forehead Thermometers

FeverScan™ products utilize thermo chromic liquid crystal (TLS) technology for the measurement of clinical temperature trends in the healthcare environment. Liquid crystals are chemical compounds and mixtures that exhibit the mechanical properties of liquids and the optical characteristics of solids.

FeverScan™ thermometers are composed of a series of discrete temperature events, each event shows a green color as the indicated temperature is attained.

Anesthesia & PACU (with adhesive backing)

Item #	Description	Pkg.
ATC430	°F 94°F-104°F	100/dispenser
ATC431	°C 35°C-40°C	100/dispenser

Hypo/Hyperthermic Monitoring (with adhesive backing)

Item #	Description	Pkg.
ATC434	Extended Range °F 84°F-106°F	100/dispenser
ATC435	Extended Range °C 30°C-41°C	100/dispenser

Reusable (no adhesive)

Item #	Description	Pkg.
ATC432	°F 94°F-104°F	100/dispenser
ATC433	°C 35°C-40°C	100/dispenser

- Continuous Display
- Forehead Temperature Monitor
- Anesthesia through PACU
- Watch for Hypo/Hyperthermia
- Pre and Post-Op Surveillance
- Disposable, Latex-Free
- Core Adjusted Temperature

W-A01690200

Welch Allyn SureTemp® Model 690

The SureTemp Plus 690 Thermometer delivers oral results in just four seconds! This electronic thermometer is easy to use, compact and dependable. It delivers oral results in four seconds, axillary temperatures (for children under four) in 10 seconds and rectal temperatures in 10 seconds with the use of an optional, interchangeable probe. Large LCD display features Fahrenheit or Celsius readouts and last temperature recall. This affordable thermometer is ideal for alternate care environments. Three 1.5V AA batteries provide 6000 readings. Automatic probe cover ejection; Two-year limited warranty.

Item #	Description	Pkg.
W-A01690200	Oral/Axillary Thermometer	ea
W-A02892000	Rectal Probe	ea
W-A5031101	Disposable Probe Covers	1000/cs
W-A5031101Z	Disposable Probe Covers	250/bx

Thermoscan® Thermometers

The NEW Braun Thermoscan Pro 4000 Thermometer patented technology is an ergonomically designed ear thermometer engineered to take temperatures easily and accurately with the click of a button.

- Exclusive ExacTemp® technology provides an active user feedback light that signals that the probe has positioned in a stable way throughout the measurement, avoiding inaccurate measurements by handling errors
- Preheated probe tip minimizes the cooldown effect experienced when taking repeat temperatures, improving accuracy and repeatability
- Automatic probe cover eject button for quick and easy removal of used probe covers
- Built-in cross-contamination safeguards – probe cover sensor reminds operator to use a new probe cover
- Wide range of patient temperature – 68°F-108°F patient range allows for rescue of intensive care
- Wide range of ambient temperature – 50°F-104°F ambient range allows for use in most environments
- Durable – tested for damage resistance
- Convenient wall-holder for Pro 4000 unit w/probe cover storage is available
- Three-year limited warranty coverage

TMS40002

Item #	Description	Pkg.
TMS40002	Thermoscan PRO 4000	ea
TMSPC800	Probe Covers	40 bx/cs

Exergen® Temporal Scanner™ Thermometer

Precision infrared scanner provides a truly non-invasive method for measuring temperature. Simply scan across the temporal artery area of the forehead, touch behind the earlobe, and an accurate reproducible temperature is measured in about three seconds.

- Convenient one-handed operation
- Completely non-invasive
- Stainless steel probe for highest durability
- Easy snap-on probe caps
- Three-year warranty

EXGTAT5000

New

Reusable Penlight

A combination penlight and pupil gauge! The pupil sizes are imprinted on the side of the pen for easy reference. Sizes range from 2mm- 8 mm. Requires 2-AAA batteries (included).

Item #	Description	Pkg.
MDS131030	Reusable Penlight with Pupil Gauge	600 ea/bx
MDS131030BX	Reusable Penlight with Pupil Gauge	100 ea/bx

Disposable Penlights

Lightweight and disposable, these high-intensity exam lights are perfect for the physician, nurse, and EMT. They're constructed of high-impact molded styrene and can be clipped on pockets.

Item #	Description	Pkg.
MDS131020	Disposable Penlight, White	6/pk

AED External Defibrillator

Cardiac Science PowerHeart® AED G3 Automated External Defibrillator with voice prompts and text screen displays guide you through the rescue process. When cardiac arrest occurs, every second counts. The advantage of the PowerHeart AED G3 is that it may be used by anyone who has received basic training on its operation. Electrodes are pre-connected and disposable. Semi-automatic defibrillator with biphasic variable waveform delivers an effective shock in less than 55 seconds. Daily, weekly, and monthly automated self-checks ensure that PowerHeart is always ready to go. Internal memory holds 60 minutes of ECG data. Includes one pair of defibrillation electrodes, instructional CD-ROM and training video, RescueLink® and MDLink® software and serial communication cable. Seven-year warranty on device & four-year full replacement on battery.

Item #	Description	Pkg.
AED9300SEMICC	Semi Automatic AED Kit	ea
AED9300AUTOCC	Fully automatic AED Kit	ea
Includes:	1 Replacement set of adult defibrillator electrode pads	
	1 Soft carrying case	
	1 Ready Kit
