

# The BladeGlove® Safety Scalpel System

Helps your facility meet  
**OSHA's Engineering & Workplace Control**  
1910.1052(d)(2)  
without compromising  
surgeons' technique.

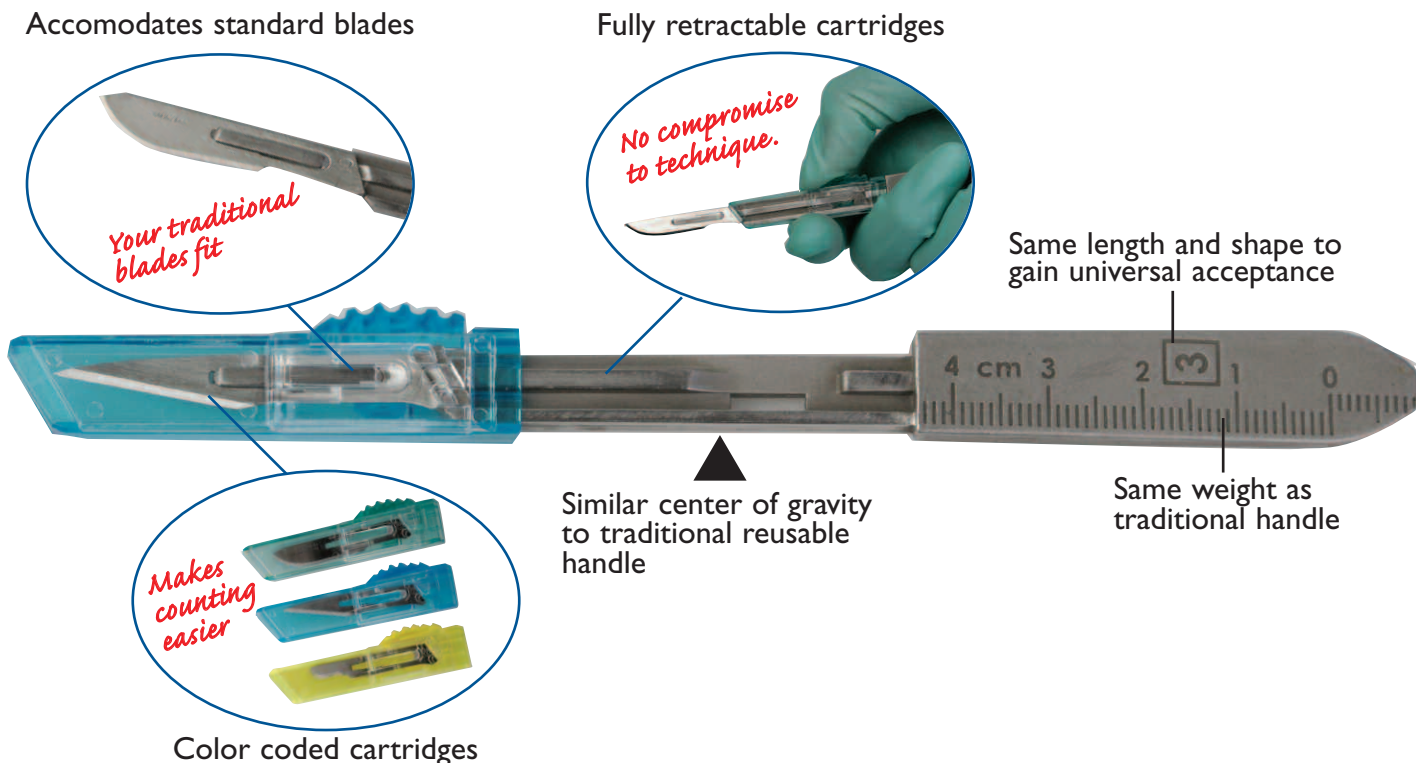

Safety Clinicians Demand And  
The "Feel" Surgeons Require

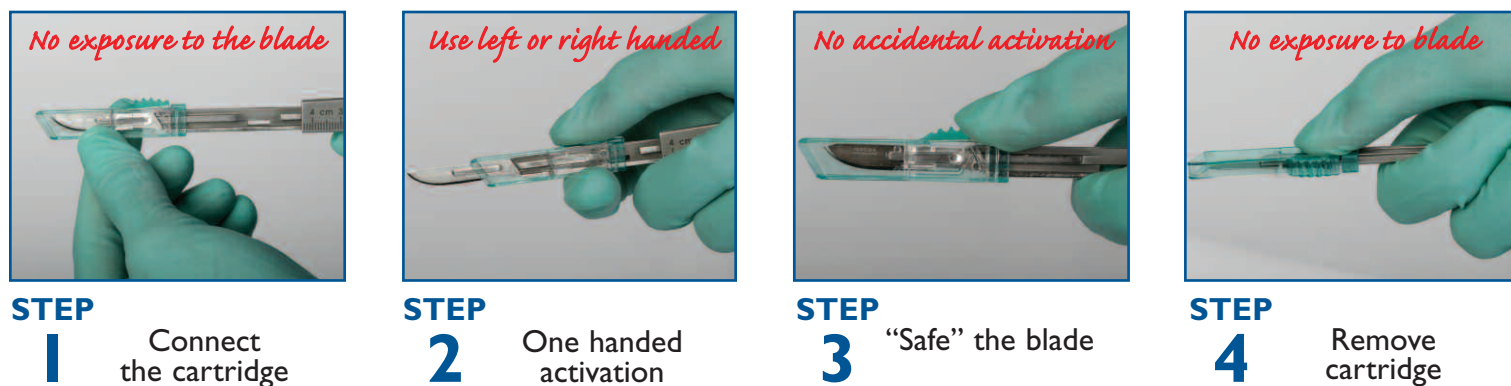

# The BladeGlove® Safety Scalpel System

The BladeGlove® System is the result of extensive research and development. The cartridges are easy to connect so anyone can use without extensive product training. The weight and shape of the handle gives surgeons the exact "feel" they are accustomed to without compromise to their years of technique.

## Exclusive Features

## Safe and Simple to Use

## Ordering Information
