

Improve the Efficiency in Your O.R. with Standard Surgical Trays from Medline

- Always available
- No contract required
- Saves time
- Reduces supply costs

Using Medline's Standard Procedure Trays is one of the easiest ways to save time and reduce supply costs in your O.R.

QUALITY AND INNOVATION. These are two characteristics that you demand in the O.R. But when you can combine quality and innovation with measurable cost savings, that's when you have something truly unique. Medline's standard procedure trays do just that.

We manufacture a line of standard trays based on the most commonly performed procedures. Made from the high quality components that you expect from Medline, the trays are designed to be efficient and universal to all users.

Not only do you reap the cost benefits from standardization, you don't have the financial responsibility that comes with customization. Inventory costs are lowered. The ordering process is streamlined. And set-up time is decreased.

Benefits of Medline's Standard Procedure Trays

- *Medline carries the largest variety of standard surgical packs*
- *No contract required*
- *An easy way to save time*
- *Reduce supply costs*
- *Order on an as needed basis*
- *Always available. No lead time*
- *Standard items in kits similar to those used in custom tray*
- *Common components from a variety of vendors at a fraction of the price*

Sure Sets

Sure Sets are designed to be efficient and universal to all users. These trays contain all the common items required for setup in the majority of every general surgery case. With a variety of categories including, Single Basin, Double Basin, Surgical Set-up, and C-Section, you will find just the configuration needed. The Sure Sets are designed to:

- *Reduce supply costs*
- *Improve O.R. suite turnaround time*
- *Eliminate packaging waste attached to single sterile components*

Bottom line, the Standard Sure Sets significantly shorten O.R. setup time, by utilizing components used in virtually every surgical procedure.

Single Basin Sure Sets

Within this Sure Set category you have one O.R. ring basin with a variety of standard surgical components, wrapped in an impervious back table cover. The Single Basin Sure Sets are designed to:

- *Reduce supply costs*
- *Improve O.R. suite turnaround time*
- *Eliminate packaging waste attached to single sterile components*

Bottom line, the Standard Sure Sets significantly shorten O.R. setup time, by utilizing components used in virtually every surgical procedure.

Double Basin Sure Sets

Within this Sure Set category you have two O.R. ring basins with a variety of standard surgical components wrapped in an impervious back table cover. The Double Basin Sure Sets are designed to:

- *Reduce supply costs*
- *Improve O.R. suite turnaround time*
- *Eliminate packaging waste attached to single sterile components*

Bottom line, the Standard Sure Sets significantly shorten O.R. setup time, by utilizing components used in virtually every surgical procedure.

Surgical Set-Up Sure Sets

Within this Sure Set category you have standard surgical components, excluding a ring basin. For those of you who use reusable ring basins. The Surgical Set-Up Sure Sets are designed to:

- *Reduce supply costs*
- *Improve O.R. suite turnaround time*
- *Eliminate packaging waste attached to single sterile components*

Bottom line, the Standard Sure Sets significantly shorten O.R. setup time, by utilizing components used in virtually every surgical procedure.

C-Section Sure Sets

Within this Sure Set Category you have all the basic surgical components required to deliver a baby via C-Section, excluding drapes and gowns. For trays containing drapes and gowns for C-sections please see our line of General Standard Surgery Trays. The C-Section Sure Sets are designed to:

- *Reduce supply costs*
- *Improve O.R. suite turnaround time*
- *Eliminate packaging waste attached to single sterile components*

Bottom line, the Standard Sure Sets significantly shorten O.R. setup time, by utilizing components used in virtually every surgical procedure.
