*Patients know ... there's no  
place like home.*

**Plush. Soft. Luxurious.** Are these words you would use to describe a hospital room? They are now! Medline is proud to offer a line of products that will help you to give patients *all the comforts of home* while they heal.

*We need not power  
or splendor,  
Wide hall or lofty dome;  
The good, the true,  
the tender,  
These form the wealth  
of home.*

Sarah J. Hale

**Feels Like Home™** is a new product line designed to pamper patients with the same level of comfort they demand in their own homes. Patients admitted to your facility will be delighted to find that *cozy* gowns, *luxurious* sheets, *ultra-soft* blankets and *comfortable* and *oversized* towels have replaced the standard thin, uncomfortable linens.

## *Luxury for health care*

In developing **Feels Like Home**, Medline put the patient first, but we didn't forget the needs of the hospital! Medline has been producing patient apparel and linens for the healthcare market for more than 50 years. We know linens. We know that our products have to stand up to commercial laundering and clinician approval. That's why all pieces of the **Feels Like Home** collection have undergone repeat commercial launderings, a good representation of what they will face in your hospital system. What's more, all of these products have been designed with nursing input to ensure they will meet the needs for patient-centered care.
