

A large, stylized green tree graphic is superimposed on a background of a real forest. The tree has a thick trunk and a full, rounded canopy of leaves. The forest background shows many thin tree trunks and dense green foliage.

# green tree™

When you choose to use our Green Tree paper line, you're helping the environment – one roll at a time! All Green Tree products from Medline are made from recycled paper, so no trees are needlessly cut down. Even though they are gentle on the environment, all 100 percent recycled Green Tree products are strong enough to stand up to tough cleaning needs at your facility.

For a complete listing of Medline's Green Tree line of toilet paper and hand towels, see the opposite side of this page. For more information, call 1-800-MEDLINE.

All Green Tree paper products from Medline are made from 100 percent recycled paper. If every household in the United States replaced just one roll of virgin fiber toilet paper (500 sheets) with 100 percent recycled paper, we could save 423,900 trees!

Recycled paper also needs less bleaching than virgin paper. Medline Green Tree products are produced without using chlorine compounds (PCF-process chlorine free), which are highly toxic.

Medline's Green Tree line of toilet paper and hand towels, made of 100 percent recycled material... because we care.

To show our appreciation, each new Green Tree customer will receive a plaque that they can hang in their lobby. This plaque will show their residents, families and visitors the commitment their facility is making in the community for years to come. Plaque available with a one-year commitment.
