Feeding Tubes

Fast, Easy and Economical

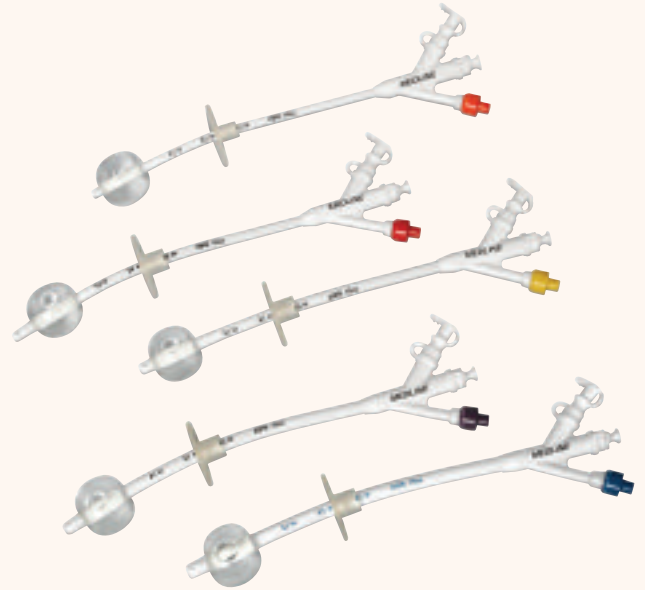

The 3-Port Gastrostomy Tube is the answer to time and cost-effective feedings.

The 3-port G-tube has a convenient third port that eliminates the need for a Y-site connector. Enjoy time and cost savings, while avoiding the wear and tear on the port from frequent connecting and disconnecting of the feeding set.

Features

- Made of the highest quality, medical-grade polyurethane
- Patented high-flow outlet port design
- Color coded for length
- Third port for irrigation or medications
- Pre-lubricated, pre-inserted lubriguide stylet
- Single use
- Lower-cost alternative
- Perfect for long-term feeding
- Sterile

Item No.	Description	Pkg
DYND70316	G-Tube, 3-Port, 16Fr, 20cc, balloon	1ea/bx
DYND70318	G-Tube, 3-Port, 18Fr, 20cc, balloon	1ea/bx
DYND70320	G-Tube, 3-Port, 20Fr, 20cc, balloon	1ea/bx
DYND70322	G-Tube, 3-Port, 22Fr, 20cc, balloon	1ea/bx
DYND70324	G-Tube, 3-Port, 24Fr, 20cc, balloon	1ea/bx

Our Nasogastric Tubes are comfortable and convenient.

NG-tubes are available in a variety of lengths and styles to meet your enteral feeding requirements. They are designed to make intubation easy and are flexible enough to minimize nasal irritation.

Features

- Lubricated stylet for ease of placement
- Polyurethane material softens at body temperature for patient comfort
- Designed to resist collapse when checking gastric residuals
- Universal "Y" Adapter has an extra large side port, which permits the use of a catheter tip syringe to flush or administer fluids
- Non-sterile
