**CTi® OA CUSTOM**

CTi® OA's composite shells can be constructed with up to 7° of varus or valgus correction, offering a high level of protection and stability for clinicians interested in treating osteoarthritis and ligament instability equally. Key features include a Total Support System, Accutrac® hinges<sup>1</sup> that mimic the natural motion of the knee joint and breathable liners, coated with Össur® Sensil® Silicone<sup>2</sup> to improve efficacy and virtually eliminate migration.

**INDICATIONS**

- Mild to severe unicompartmental osteoarthritis
- ACL, MCL, LCL, PCL, rotary and combined instabilities
- Vapor model for low to medium impact levels
- Standard model for medium to high impact levels
- Pro Sport model for highest impact levels
